# Flow through heater in aluminium (for e.g. coffee machine)

### >> Description

Double tubular heating element with interjacent water pipe, for heating water in appliances with continuous flow e.g. coffee machines.

### >> Technical specification

Material	Extruded aluminium with pipe in aluminium or stainless steel
Dimension	Acc. to customer spec.
Weight	358 g
Power	2 x 650 W
Voltage	230 V
Water pressure	1-2 Bar
Pre heating	25 seconds (to 130°C)
Temperature	70°C (continuously at 260 ml/min after pre-heating)
Flow	260 ml/min
Surface load	17,24 W/cm <sup>2</sup>
Safety	The elements meet requirements acc. to EN 60335-1

Flow through heater

### >> Benefits

- Possibility to generate steam (30g steam/minute)
- Compact design, easy to place in small applications

### >> Fields of application

- Coffee machines
